

MORE POWERFUL TOGETHER: PageUp™ Onboarding meets Learning

Respond to any business challenge and solidify your organisation's competitive advantage by empowering new hires to drive role success.

Is your organisation facing the following business challenges?

- Delayed speed-to-competence for new hires
- Time-poor line managers not inducting new employees in a timely manner
- No visibility on compliance training – audit risk to the business
- Lack of engagement due to a disjointed user experience – siloed onboarding and learning processes and technologies

Combining the PageUp™ Onboarding and Learning Management offerings engages employees in a continuous development journey from day one. It drives acceleration of speed-to-competence, increases employee productivity and mitigates compliance risk – all delivered via a seamless user interface.

PageUp's onboarding and learning management solution will:

Grow with your organisation

It's flexible to support your organisation's onboarding and learning needs, and enables delivery of traditional SCORM compliance, through to strategic new-hire learning activities. Engaged employees are competent and role ready.

Drive engagement and adoption

Mobile-enabled and app-centric tools allow employees to complete their tasks anytime, anywhere. It provides a seamless experience from onboarding to continuous learning.

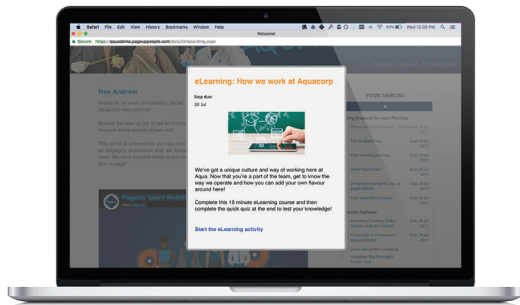

Enhance the employee journey

A single platform manages your onboarding and learning ecosystem. Unified analytics enables your administrators to measure speed-to-competence and in-role compliance of new employees, in one spot.

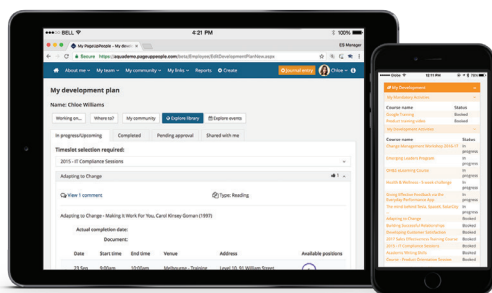

Key Features:

A single, fully integrated interface for easy access and completion

As part of any extended onboarding workflow, all strategic learning housed in PageUp's LMS can be seamlessly accessed directly from the PageUp Onboarding module, making completion and tracking simple for your employees, managers and administrators. No need for messy, separate, non-integrated systems.

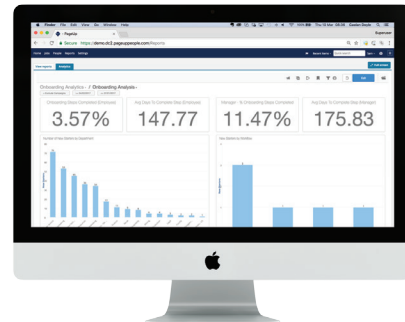

Aligns onboarding and learning to development plans

Empower new employees to access their development plan from their day of hire to drive engagement and get a head start on accelerating speed-to-competence, ensuring their continual alignment to organisational goals.

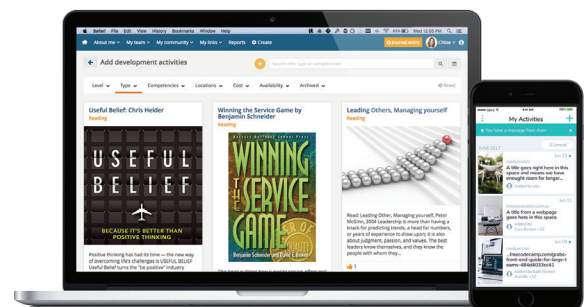

Ready to learn how PageUp can help you drive employee speed-to-competence via a seamless and continuous onboarding and learning journey in your organisation?

Fully trackable for greater visibility across the entire learning journey

Enable managers and administrators to track the completion of new starter compliance AND development with robust analytics under one roof, providing greater clarity across the entire learning journey.

Caters to all types of learning, both formal and informal

Leave a great impression on new hires by providing them a rich, onboarding experience catering for both formal, organisation-driven e-learning and training, as well as mobile-enabled, informal, everyday learning with social sharing functionality.
